Short Course on Language and Interactive Skills (April 23 to May 2, 2019)

Brief Introduction : Information revolution has transformed the world to a global village, wherein there is a vast flow of information through different communication media. In this process a large quantum of information goes waste due to shortage of trained professionals. To overpower this limitation, skilled manpower needs to be developed so as to reduce the gap in communication of information and increase interaction among all concerned. English has become the universal language of science and it is of utmost importance for the scientific community to acquire skills in the use of English language. English is acquiring significance as a handy tool, both in academic and professional pursuits. Through the proper acquisition and correct use of English language, scientists gain access to the vast scientific literature available world-wide. They, then can disseminate that knowledge among the farming community. Recognizing this aspect, the present course is designed to help people work effectively and efficiently in contemporary information society. The course has been specially designed to equip the participants with communicative and interactive skills in English language.

Objectives:

- To provide a broader perspective to language comprehension.
- To develop language skills for meaningful and effective interaction.
- To enhance intelligibility of the communicative English.
- To enable the speaker to switch his/her linguistic gear according to different situations.
- To sensitize the participants to principles of communication for effective discharge of their duties and personality development.

This course in interactive skills will cover:

- Proficiency in comprehension and presentation.
- Communication among individuals and groups.
- Guidance in usage of emphatic expressions.
- Basic guidance in pronunciation.
- Intelligibility in Spoken English.
- Communication for Effective Teaching

Duration and Venue: Ten days / Directorate Human Resource Management CCS HAU, Hisar

PARTICIPANTS

The course has been designed for the extension specialists /teachers/scientists working in SAUs, ICAR Institutes, State Universities, Colleges and other organisations. Total number of seats has been kept at 30.
